

ANUGERAH INDUSTRI TERNAKAN MALAYSIA KE-6 6TH LIVESTOCK INDUSTRY AWARD 2011 4 OCTOBER 2011, KUALA LUMPUR CONVENTION CENTRE

MALAYSIAN LIVESTOCK INDUSTRY AWARDS 2011

“The livestock industry is one of the most dynamic sub-sectors of Malaysia’s agriculture industry. It produced more the 2 million metric tons of livestock products representing 27% of total agro food production in 2009. The government have identified and capitalized on the growth by launching the Economic Transformation Programme (ETP) that will help to propel the transformation of Malaysia into a high-income nation by 2020. The ETP will focus on 12 National Key Economic Areas (NKEAs) with the Agriculture NKEA being one of the main engines of growth set to increase the Gross National Income (GNI). The livestock sub-sector will benefit tremendously with the implementation of the six Entry Point Projects (EPPs) that has the ultimate goal of ensuring the national food security as well as expanding the sector’s GNI contribution. Therefore, I urge the industry captains to ride on this opportunity to ensure the sustainability and profitability of the livestock sub-sector for the good of the nation for years to come.”

Dato' Dr. Abd. Aziz Bin Jamaluddin
